

# Civic Technology and Community Engagement

...

Betsy Gardner, MS  
Research Programs Manager  
The Engagement Lab  
@ Emerson College

Publics can effectively interface with institutions in an age of increasing mistrust.

# Our Methods: Applied Research and Design

...

# Our Knowledge Outcomes: Technology, Workshops, Journals, Games, etc

Graduate Program Director  
Principal Investigator and Associate  
Professor

# Who is the Engagement Lab?

# Technology and the “Smart” City

## Challenge 1

New “smart” city technology: can communities impact it?

**Privacy concerns in China's smart city campaign: The deficit of China's Cybersecurity Law**

Fan Yang<sup>1</sup> | Jian Xu<sup>2</sup>

## Challenge 2

Are community needs actually being heard and addressed?

SIAM FUTURE | By Kaleigh Rogers | Nov 16, 2017, 10:58am  
**Ignored By Big Telecom, Detroit's Marginalized Communities Are Building Their Own Internet**

40 percent of Detroit residents don't have any access to internet at all.

**Criticism of India's Smart Cities Mission is mounting**

Two years into the Modi administration's ambitious goal to create 100 smart Indian cities by 2020, the real problems facing people remain: poverty, lack of basic services, and an ever-present risk of being forced to leave one's home.

# Making a Civic Smart City

[civicsmart.city](http://civicsmart.city)

...

**“What are the best ways of involving publics in decision-making about smart digital infrastructure and tools in their city?”**

# The Five Plays

- #1. Embrace “Smart Cities”
- #2. Cultivate Local Innovation Ecosystems
- #3. Invite Public Influence
- #4. Question Data
- #5. Imagine the Possible

Invite Public Influence

Imagine the Possible

Cultivate Local  
Innovation  
Ecosystems

Question Data

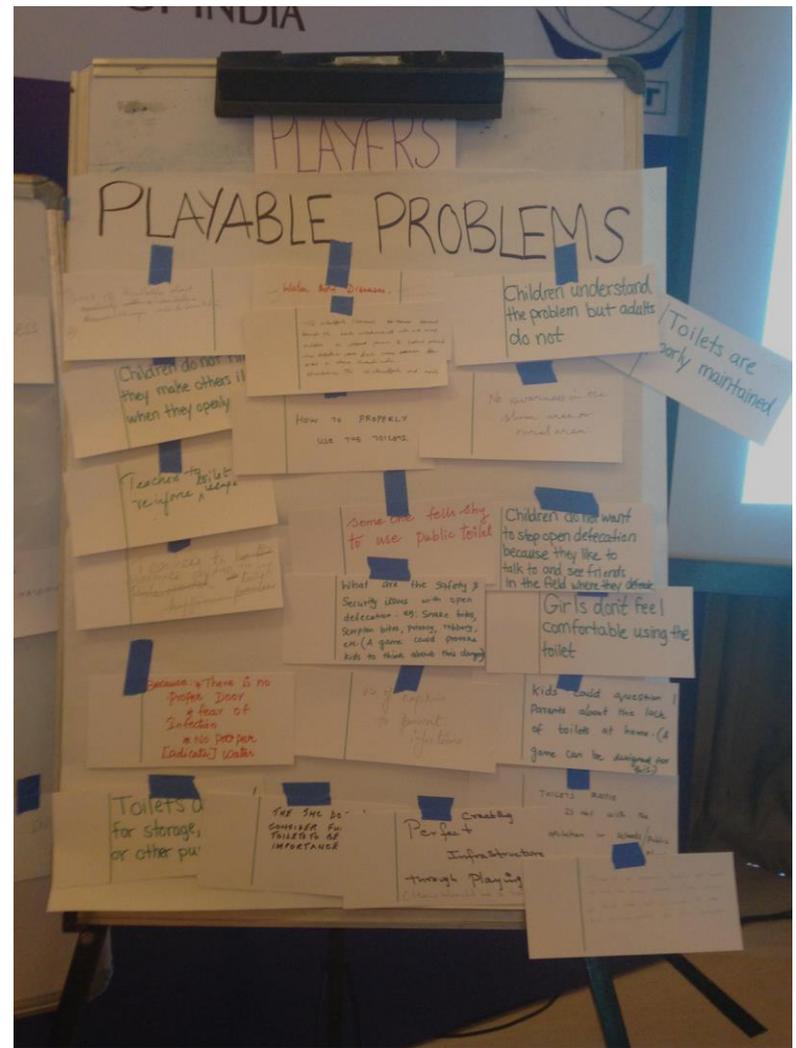

**beta  
blocks**

**A block-level experimentation zone that encourages publics to invent, adopt, and adapt technologies to improve their quality of life.**

# Beta Blocks will... Engage citizens.

# Beta Blocks will...

Encourage participation.

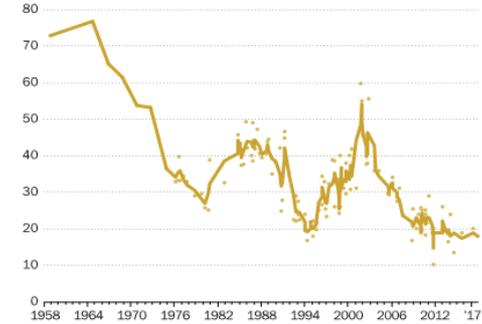

# Beta Blocks will...

## Increase co-creation.

### Trust in the federal government remains near historic low

% who say they trust the federal government to do what is right just about always/most of the time ...

Notes: From 1976-2017 the trend line represents a three-survey moving average.

Source: Survey of U.S. adults conducted Nov. 29-Dec. 4, 2017.

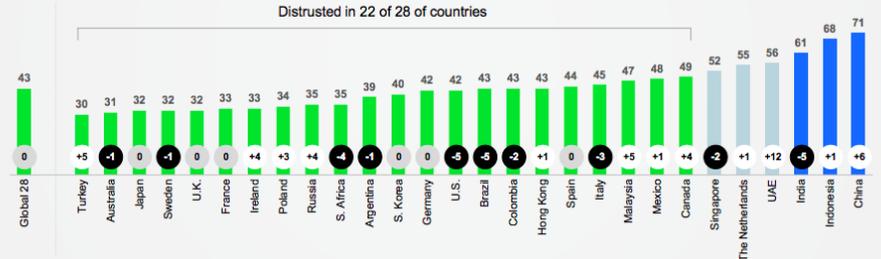

Trend sources: Pew Research Center, National Election Studies, Gallup, ABC/Washington Post, CBS/New York Times, and CNN polls.

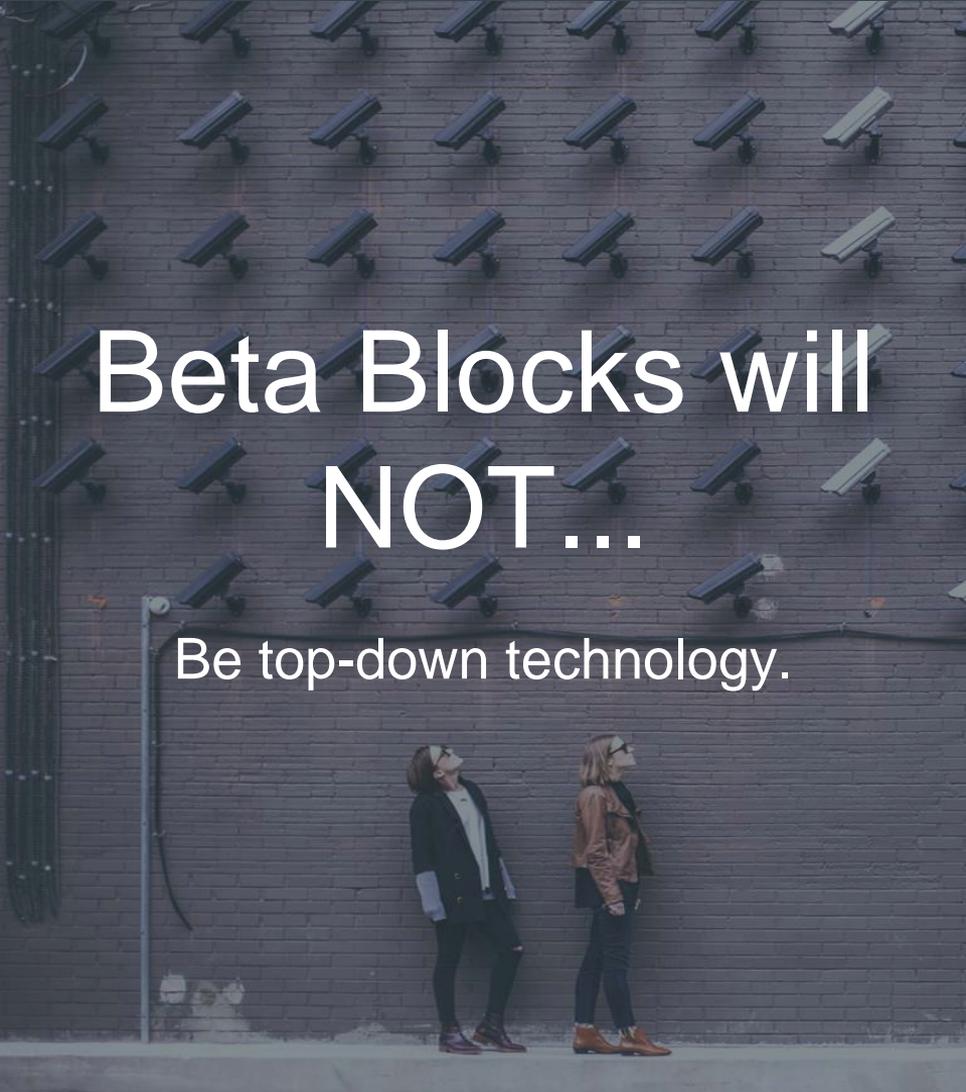

PEW RESEARCH CENTER

### Media Now Least Trusted Institution

Percent trust in media, and change from 2017 to 2018

■ Distrust
 ■ Neutral
 ■ Trust
   
● ● + Y-to-Y Change

A dark brick wall is covered in a dense, grid-like pattern of black security cameras. Two people are standing at the bottom of the wall, looking up at the cameras. The overall tone is dark and surveillance-oriented.

# Beta Blocks will NOT...

Be top-down technology.

A light-colored brick wall is covered in a dense, grid-like pattern of silver security cameras. A door and a window are visible on the wall. The overall tone is bright and clean.

We want tech to be  
used by people, not  
tech to use people.

# The Physical Presence
